

ORCAS POWER AND LIGHT COOPERATIVE
TARIFF
ELEVENTH REVISION – REPLACING TENTH REVISION

TARIFF CI-08
COMMERCIAL INTERRUPTIBLE SERVICE

AVAILABILITY

Available to commercial consumers who install load management equipment at their expense.

TYPE OF SERVICE

Single-phase or three-phase, 60 cycles, at available secondary voltage.

APPLICATION

Service for pools, greenhouses and other non-essential loads which may be interrupted without causing an unsafe condition or causing undue hardship on the member. This may not be used for general building, heating, lighting or other loads.

BASIC CHARGE: \$28.75

ENERGY CHARGE: On Peak (6:00 a.m.- noon) - all kWh @ \$0.1198 per kWh
Off Peak (hours not listed above) - all kWh @ \$0.0417 per kWh

MINIMUM MONTHLY CHARGE

The minimum monthly charge, under the above rate, shall be \$28.75 per month or prorated if service is provided for less than a full month.

WHOLESALE POWER COST ADJUSTMENT

A surcharge or credit may be applied to each billing for service under this tariff to reflect increases or decreases in the wholesale cost of power based on the rates charged by the Bonneville Power Administration.

GENERAL PROVISIONS

1. OPALCO reserves the right to determine whether a potential application is eligible for this rate.
2. The rated capacity of any motor served under this tariff shall be as follows:
 - Motors up to 2 HP can operate at 115 volts.
 - Motors larger than 2 HP (single phase) must be reviewed and approved by OPALCO engineering prior to connection to the system.

Randy J. Cornelius, General Manager

Effective Date: March 1, 2008

Tariff CI- 08, Continued

3. No single resistive three phase loads (examples: ovens, heaters, kilns) over 45kW shall come on line simultaneously.
4. Non-resistive loads such as arc welders, fluorescent or mercury lamps, and induction heating furnaces are causes of harmonic distortion and may require corrective measures.
5. OPALCO may interrupt service to this account at any time, without notice, for economic or technical reasons.
6. See Member Service Policy 3-Technical Provisions for additional requirements.
7. Loads served under this tariff shall not be capable of being switched to another meter served under a different tariff.

Randy J. Cornelius, General Manager

Effective Date: March 1, 2008
