

ORCAS POWER AND LIGHT COOPERATIVE  
TARIFF  
SECOND REVISION - REPLACING FIRST REVISION

**TARIFF J-09**  
**JOINT USE OF POLES**

**AVAILABILITY**

Available to public utilities for communication contacts.

**POLE CONTACT RATE DETERMINATION**

The rate for joint use of poles will be recalculated every year using the FCC methodology. Calculations effective January 1, 2009 are as follows:

Pole Measurements:

Total pole height	37.5 ft
Usable space	13.5 ft
Non-usable space	24.0 ft
Space occupied by attachment	1.0 ft
Average number of attachments per pole	1.5

Pole Attachment Rate Calculations, FCC Formula:

Unusable Space Factor:

2/3 factor	0.67
Unusable space	24.00 ft
Pole height	37.50 ft
Net cost of bare pole	\$141.32
Number of attachers	1.50
Carrying charge rate	32.59%
Unusable Space Factor	13.10 ft

Usable Space Factor:

Space occupied by attachment	1.00 ft
Total usable space	13.50 ft
Pole Height	37.50 ft
Net cost of bare pole	\$141.32
Carrying charge rate	32.59%
Usable space factor	1.23

**TOTAL RATE: \$14.33** per attachment for fiscal year effective January 1, 2009.

**GENERAL PROVISIONS**

An executed *General Agreement for Joint Use of Poles* will be required prior to communication attachments on any OPALCO poles.
