MEMORANDUM

November 11, 2016

- To: **Board of Directors**
- From: Foster Hildreth, General Manager
- Re: 2016 3rd Quarter Financial Report

Included in the 2016 3rd Quarter Financial Report are the Statement of Operations (along with a Notable Drivers analysis), Statement of Financial Position, Statement of Cash Flows (GAAP), and the Capital Projects Budget.

In summary, overall Q3 finances are tracking favorably to budget. The total revenue was 1.6% higher (\$288k) than budgeted for Q3, although this was more than offset by the related increase in purchased power (\$374k), which was driven by large demand charges coupled with a BPA power shaping credit charge during 2016. All combined, it resulted in an increased margin of \$261k. Revenue and expenses will continue to be monitored closely.

Please note the following key points for more detail:

- Q3 Heating Degree Days (HDD) are down ~9% below forecasted, although both kilowatt hour purchases and sales are above budgeted amounts. Weather and heating fluctuations are expected to produce dramatic sales revenue volatility, and the budget is based on those assumptions.
- Q3 year-to-date power purchases were up \$374k than budgeted amounts due to higher kWh consumption and the fact that additional demand charges were incurred this year.
- Q3 year-to-date operating expenses were approximately \$198k under budgeted amounts, even though there was an increase in purchased power and acceleration of the brush clearing and Right-of-Way work being performed earlier than usual this year, along with unplanned system maintenance due to storm damage. There remain very few discretionary expenses to cut at this time because most expenses are directly related to service levels and, as previously agreed, safety or the reliability in our system will not be reduced.
- Interest expense was lower by \$135k in 2016 than budgeted amounts due to favorable refinancing of RUS loans.
- During 2016 BPA lowered rebate incentives, coupled with BPA EEI funding running out for rate period resulted in reduced member uptake on energy efficiency rebates lower than projected by Q3, slowing interest in energy Snapshot Assessments, and OPALCO scaling back rebate payouts until the new BPA EEI funding period. All together this resulted in a \$263k decrease in budgeted amounts for the energy services area.
- Rock Island Communications has been charged \$227k by OPALCO for use of the communications backbone, rent, and interest expense in 2016. This was partially offset by \$26k in expense paid to Rock Island Communications for Internet services.

Orcas Power & Light Cooperative 2016 Q3 Financials

46 Notes:

47 1 \$175,629 in Allowance for Funds Used During Construction (AFUDC). This cost is embedded in the associated projects listed above for capitalization purposes.

48 2 \$62,706 in Environmental Consultants. This cost is embedded in the associated projects listed above for capitalization purposes.

ments

e new services than anticipated

ay in Buck Mountain conversion

ge transformer to be returned

ay in Cattle Point sectionalizing (expected completion Q4)

e Parks released permit for Olga/Orcas tie. Higher rock excavation ing than anticipated

ineering for LZ to SJ terminal and North Shaw Terminal design ayed payments to cable manufacturer from 2015 expended in 2016

litional funds approved by board in February for security

hase of service truck due to failure

ay database upgrade for future year ay for Energy Storage System Grant

r Harbor bridge conversion and joint projects

than anticipated

ay for Energy Storage System Grant
