 $\checkmark$ 

 $\checkmark$ 

 $\checkmark$ 

Remove and replace submarine cable Reduced the number of communication dead zones to near zero Continued undergrounding of distribution system RESP Approved, loan docs to follow \$1 million CEF battery grant Submitted new CWP and RUS loan applications Deployment of office automation to field crews Next generation of co-op employees are on board Became the largest provider of internet services in the county Outage map

# What's Coming in 2018?

Decatur Island 69 kV tap Community solar + storage **RESP** loan program launch Propane generators on active sites We are fully staffed, employee appreciation **On-bill financing** 

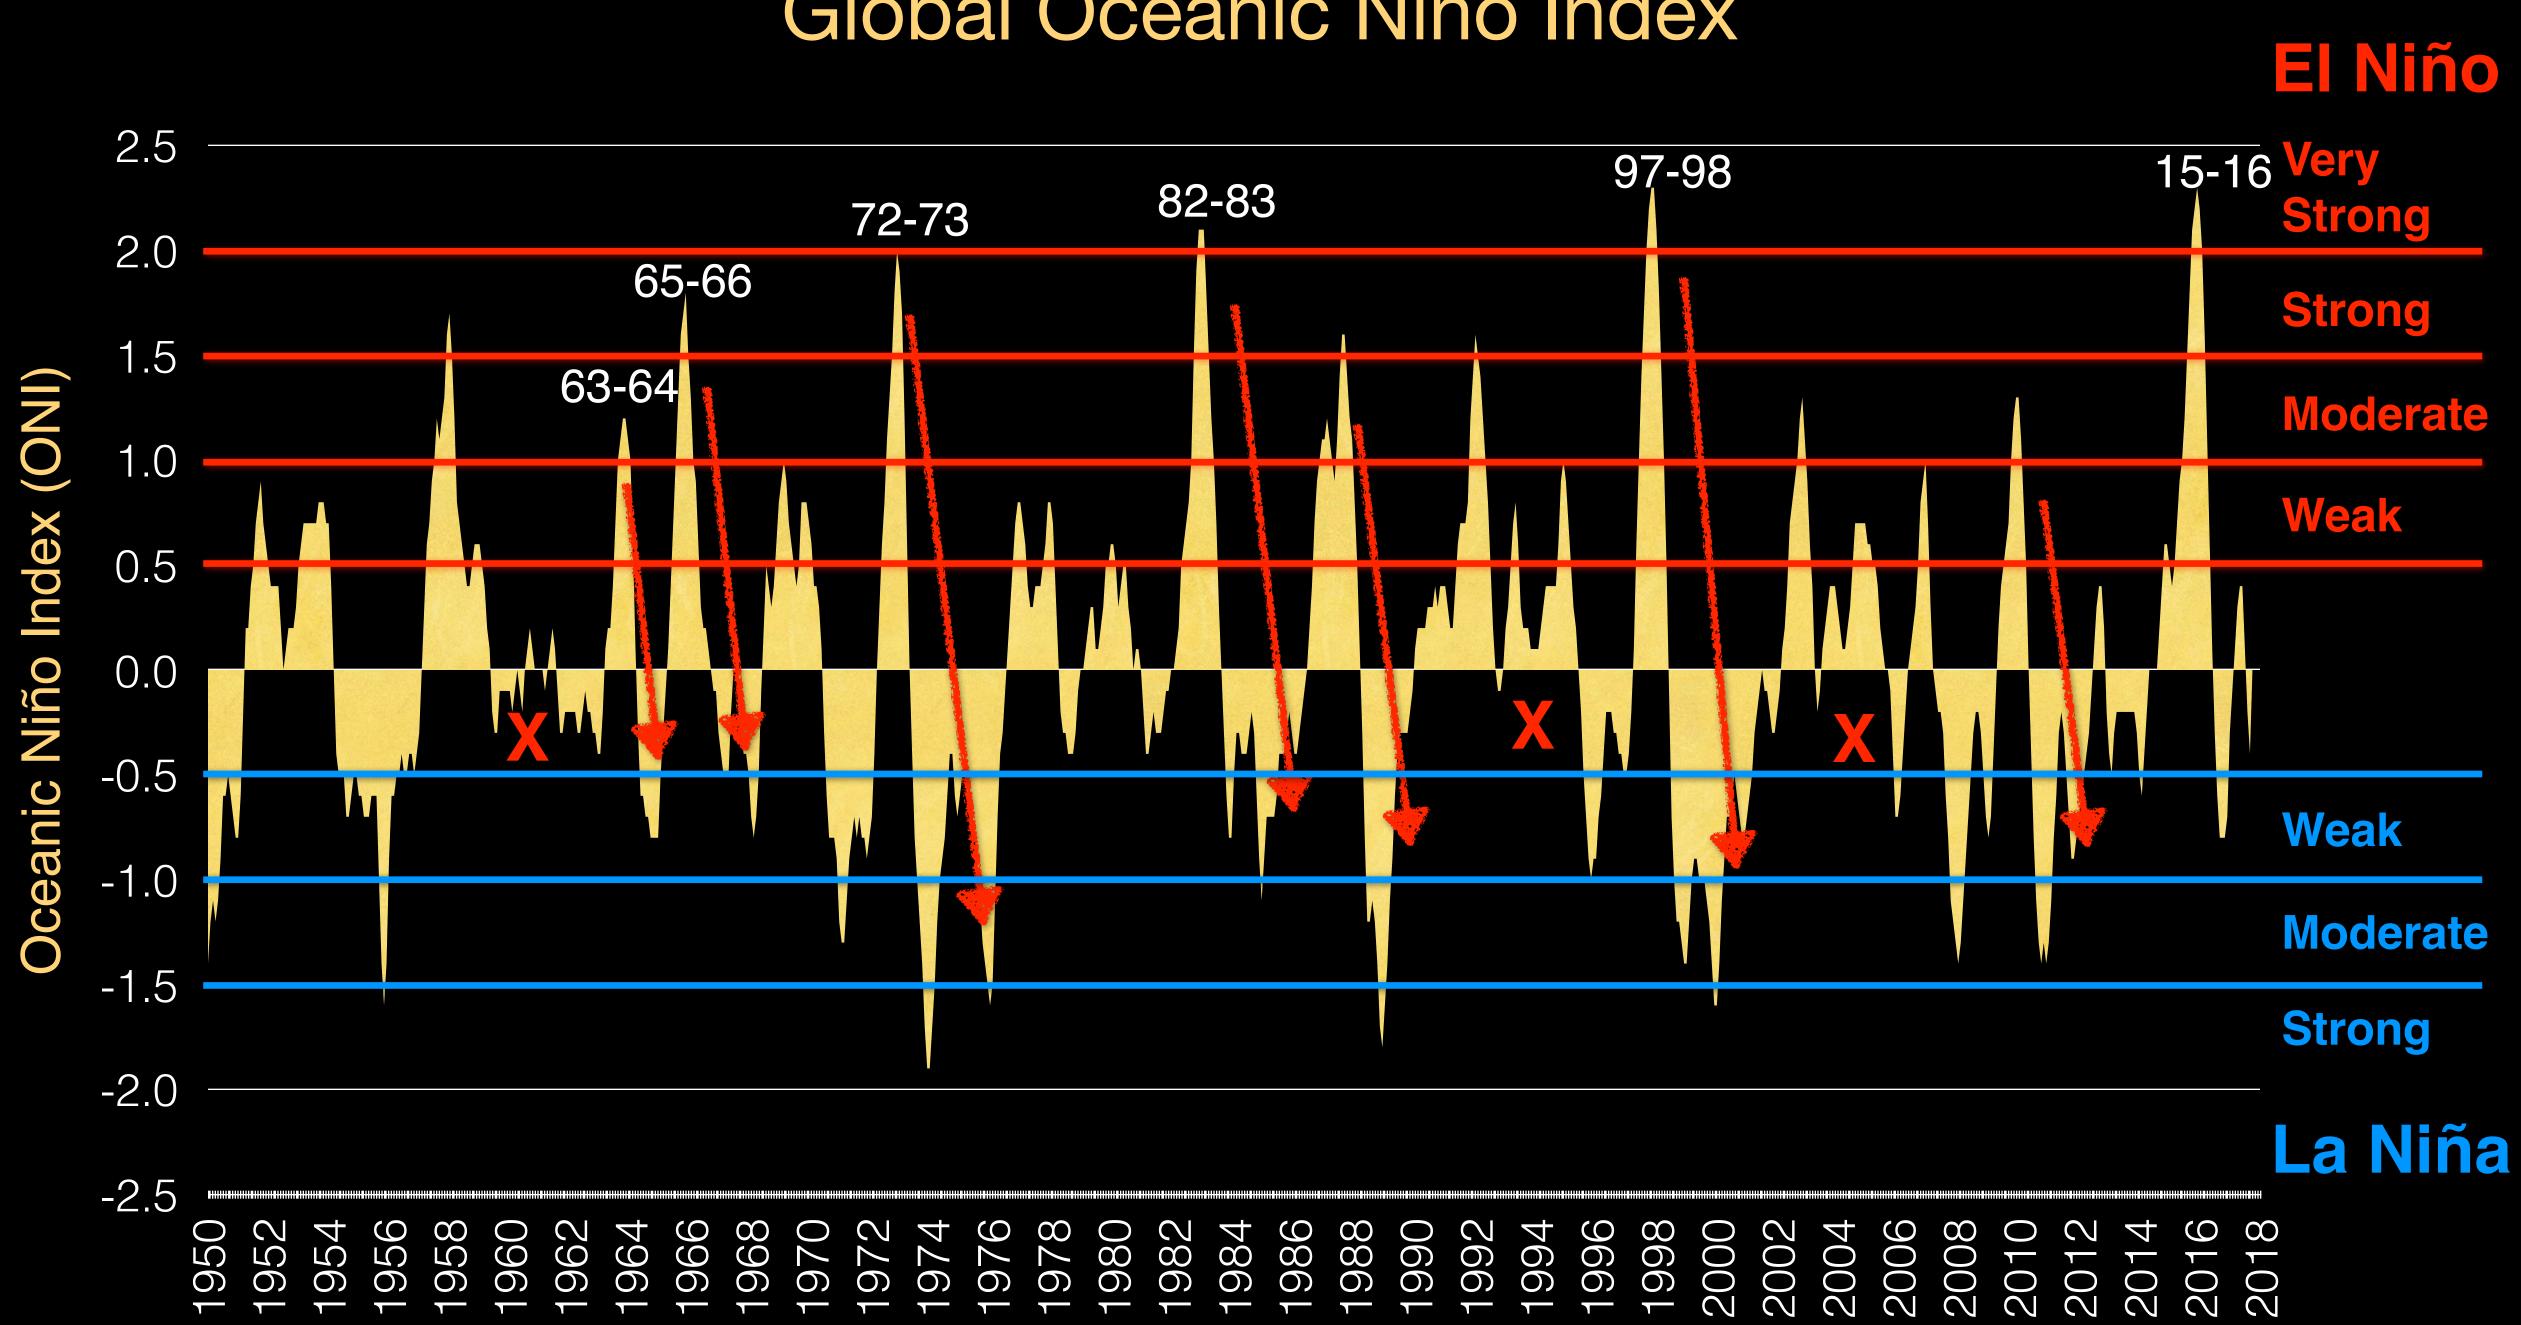

Load Forecast

# Global Oceanic Niño Index

# Cold spikes during mid-December 2016 and mid-January 2017 wind shift

### Notes

 Sea Temperature takes months to change a few degrees.

 Air temperature can change a few degrees in a matter of hours due to changes in wind direction.

Page 6

# San Juan County: Current Sea Temperature is Neutral

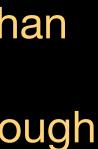

Source: NOAA, National Data Buoy Center

### <u>Headline</u>

Sea temperature is warmer than normal for November and December (average 2005 through 2012)

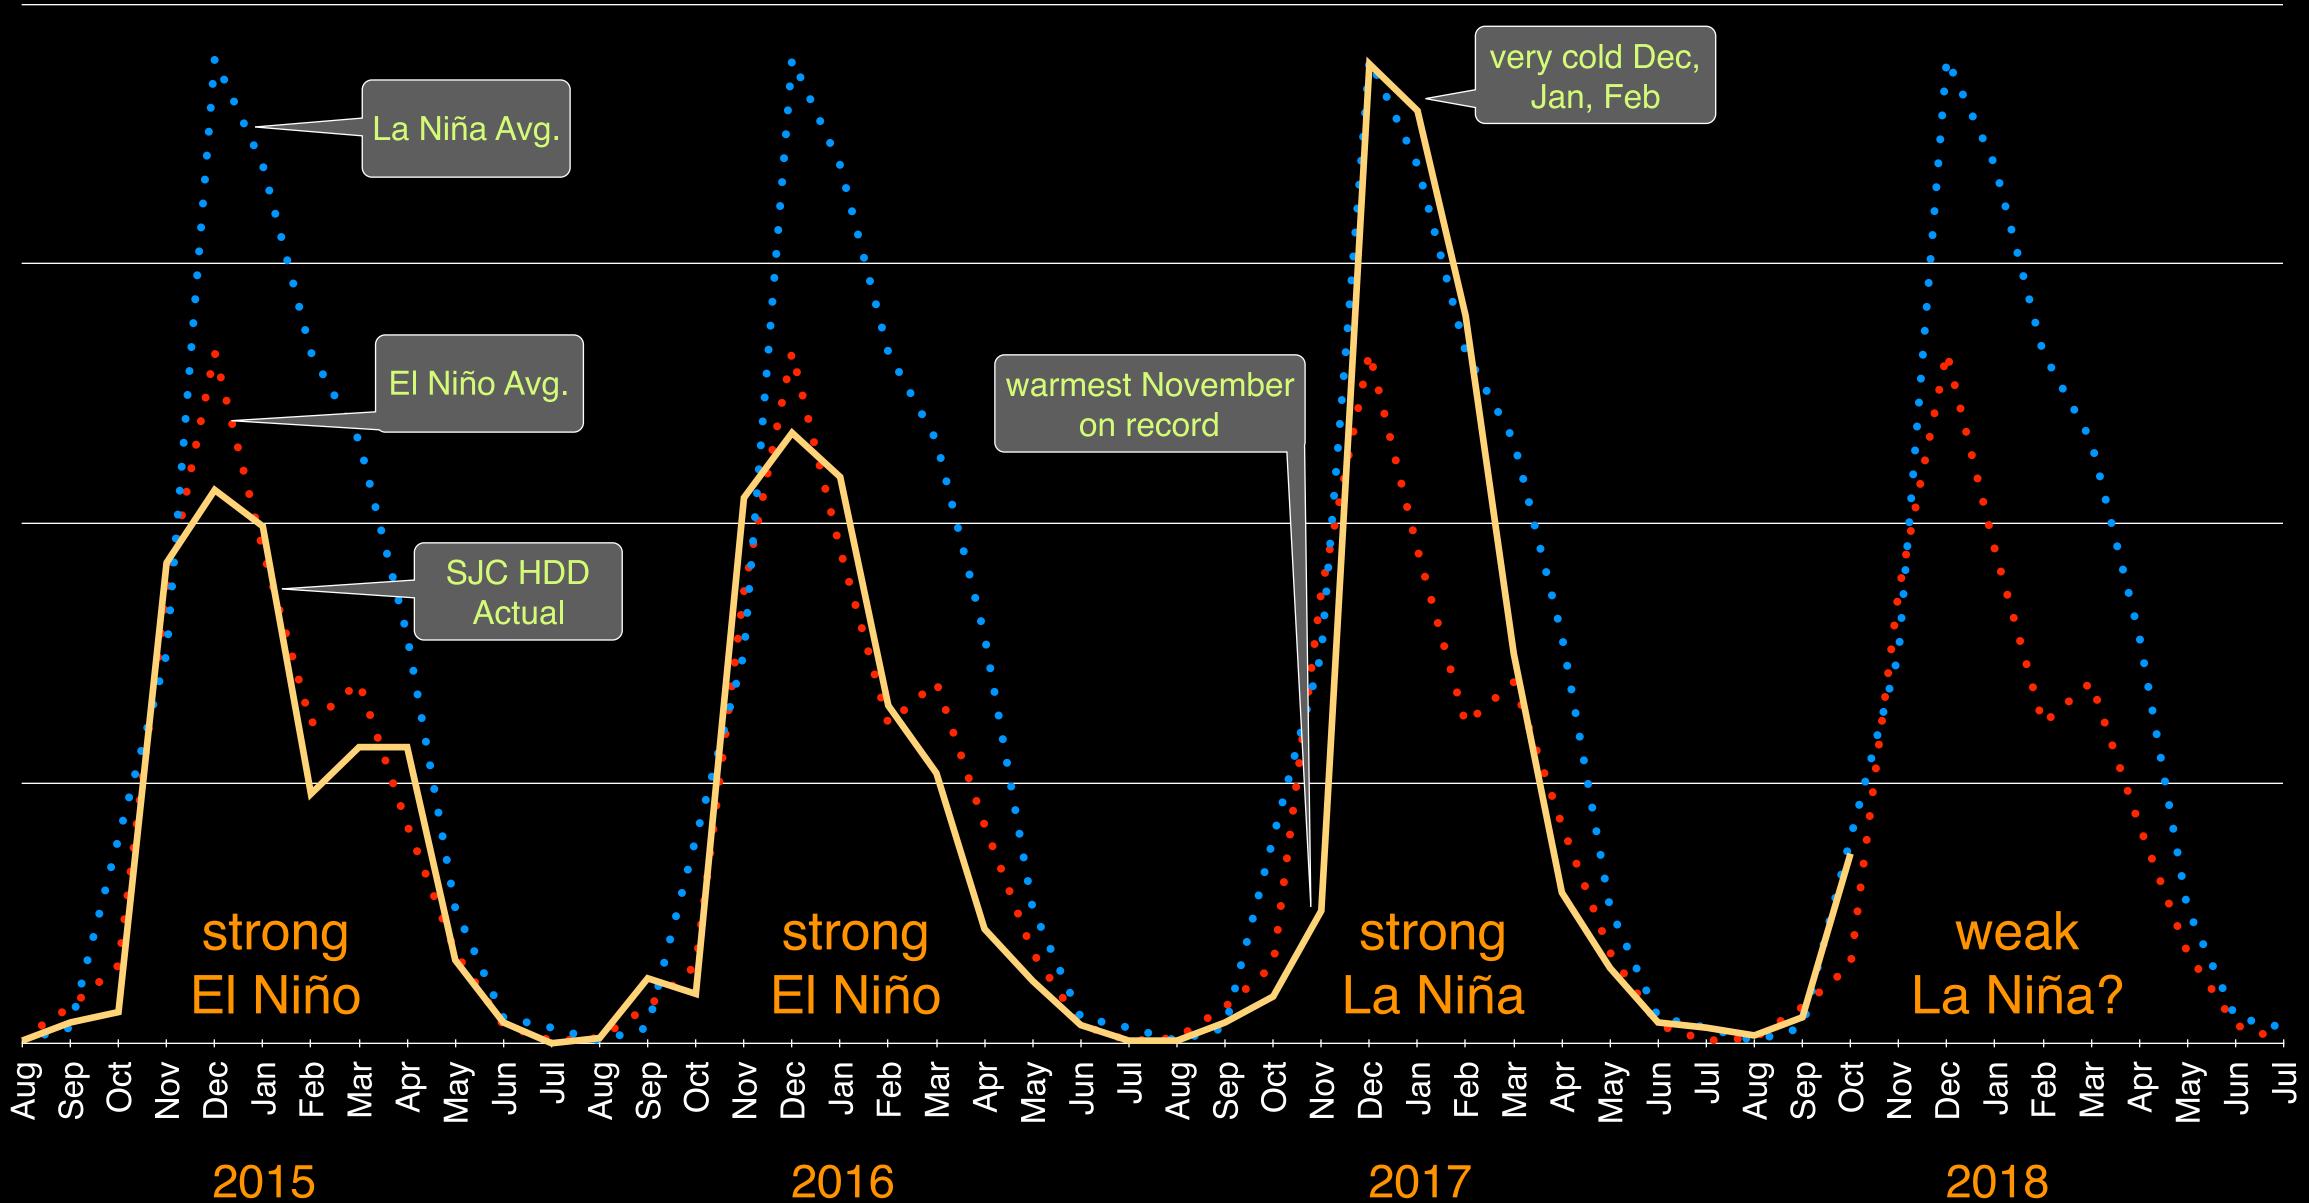

# Current Winter Was Much Colder Than Previous Two Winters

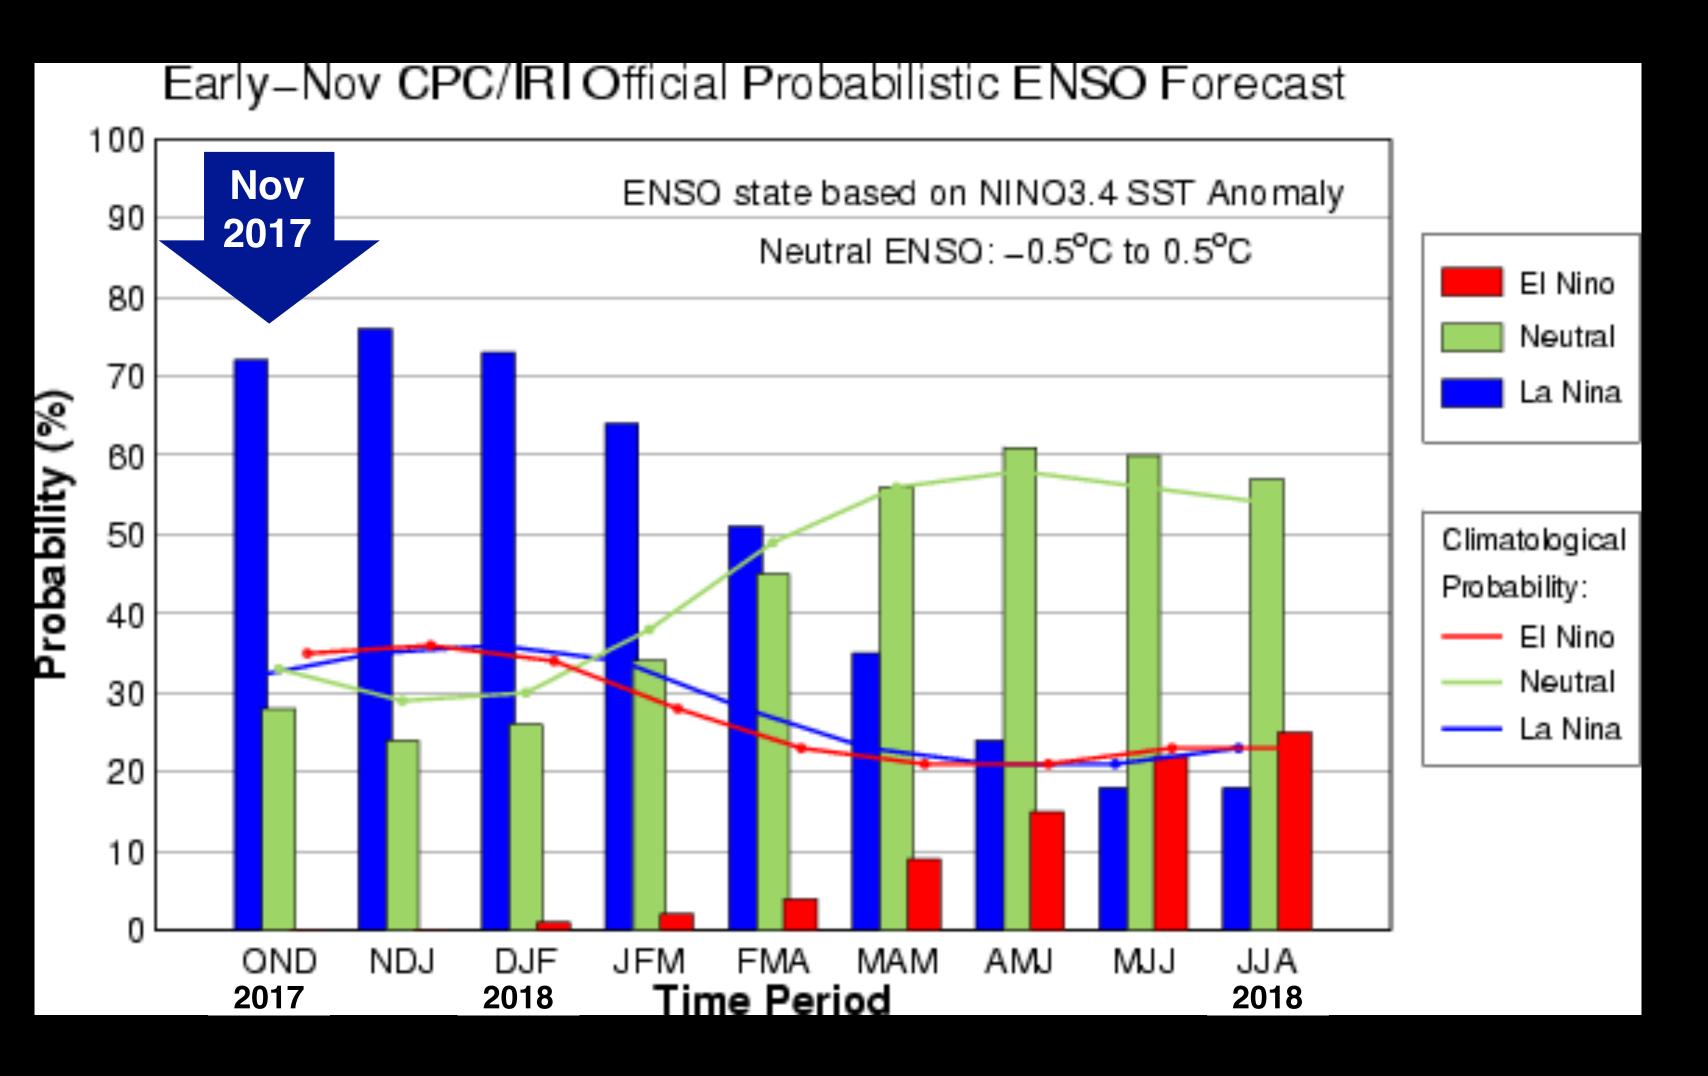

400 La Niña Avg. (HDD) 300 Days El Niño Avg. Degree 200 SJC HDD Actual Heating 100 strong strong El Niño El Niño ···· 0 2015 2016

# Weather Uncertainty: NOAA Update (9 November 2017)

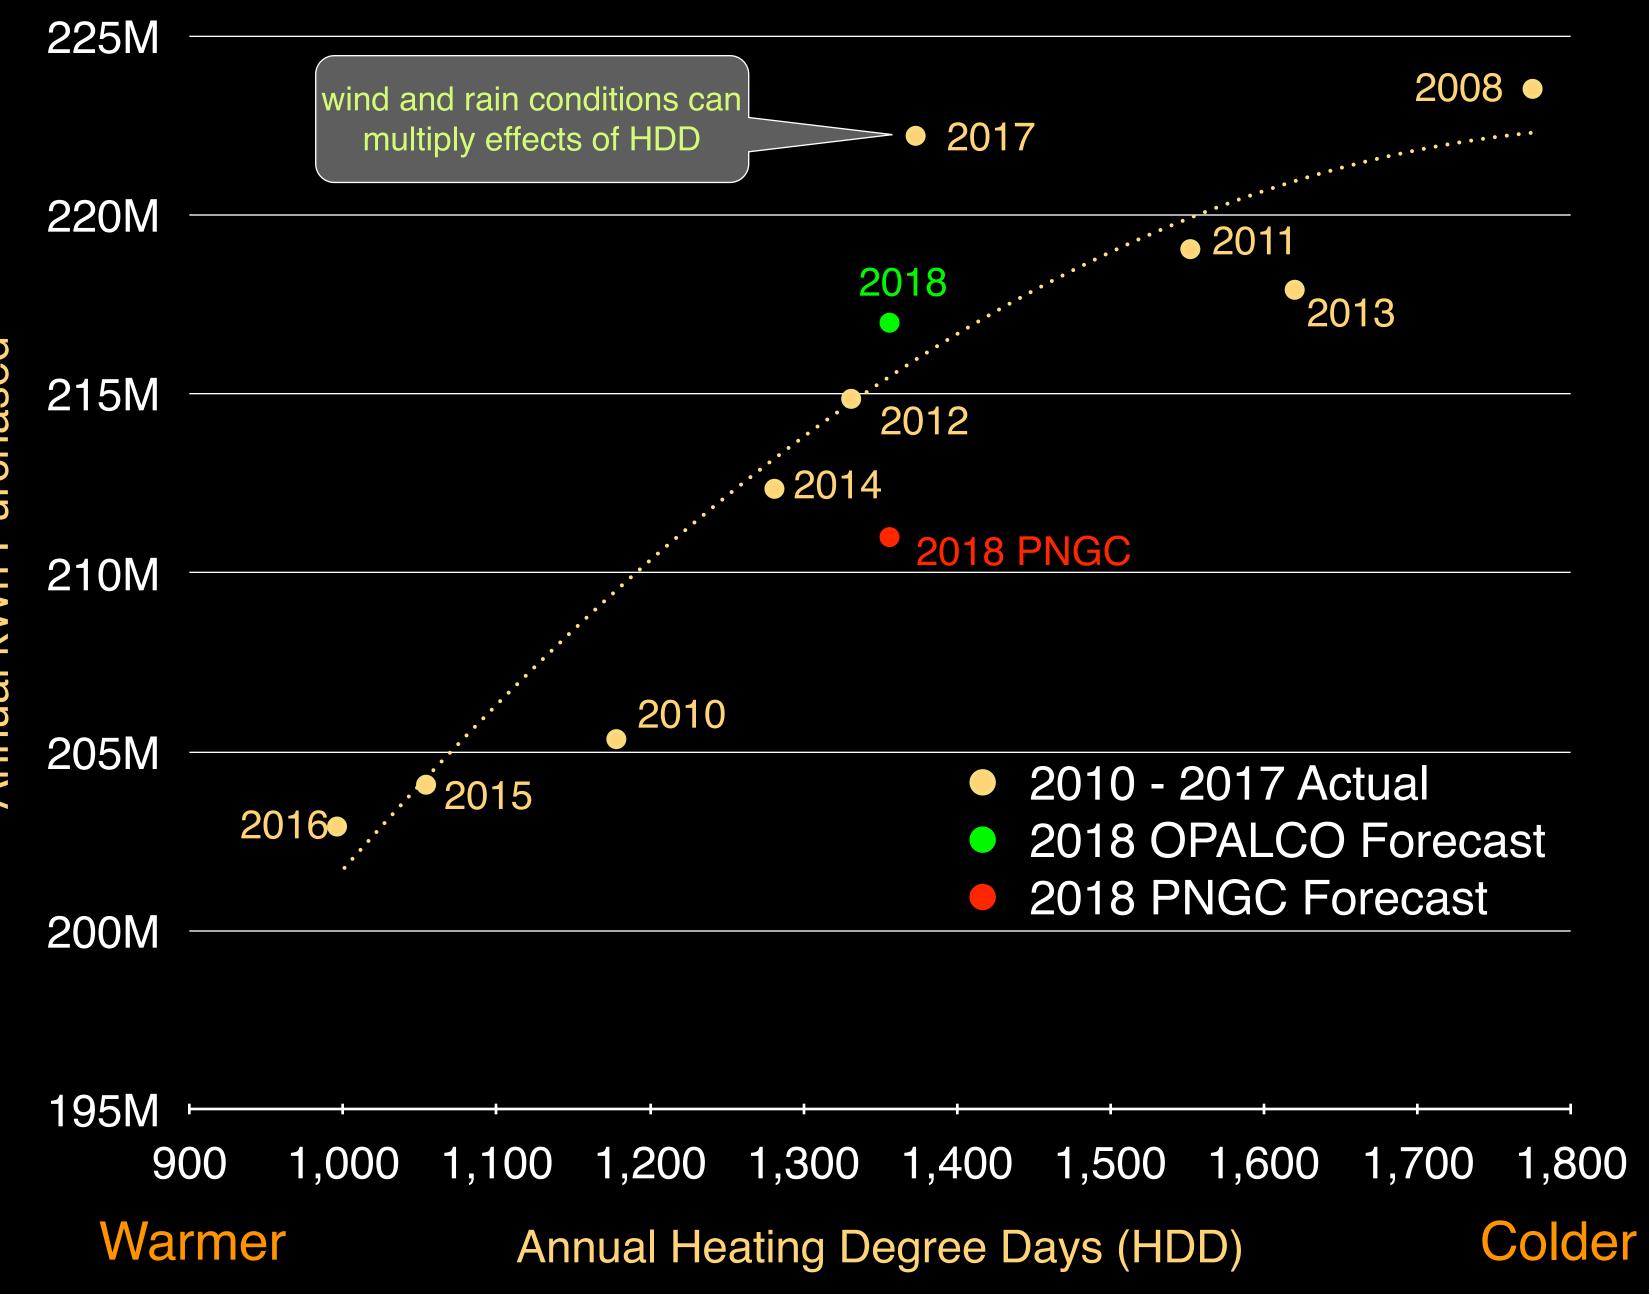

Weak La Niña conditions are predicted to continue (~65-75% chance) at least through the Northern Hemisphere winter 2017-18

# Load Forecast: 2018 Forecast

Purchased Annual kWh

2010 - 2	2017 Actua	al

# each 1 million kWh sold = \$150,000 in revenue = \$100,000 incremental margin

# each 1% rate increase = \$250,000 in revenue

Expenses Energy Purchases People Everything Else

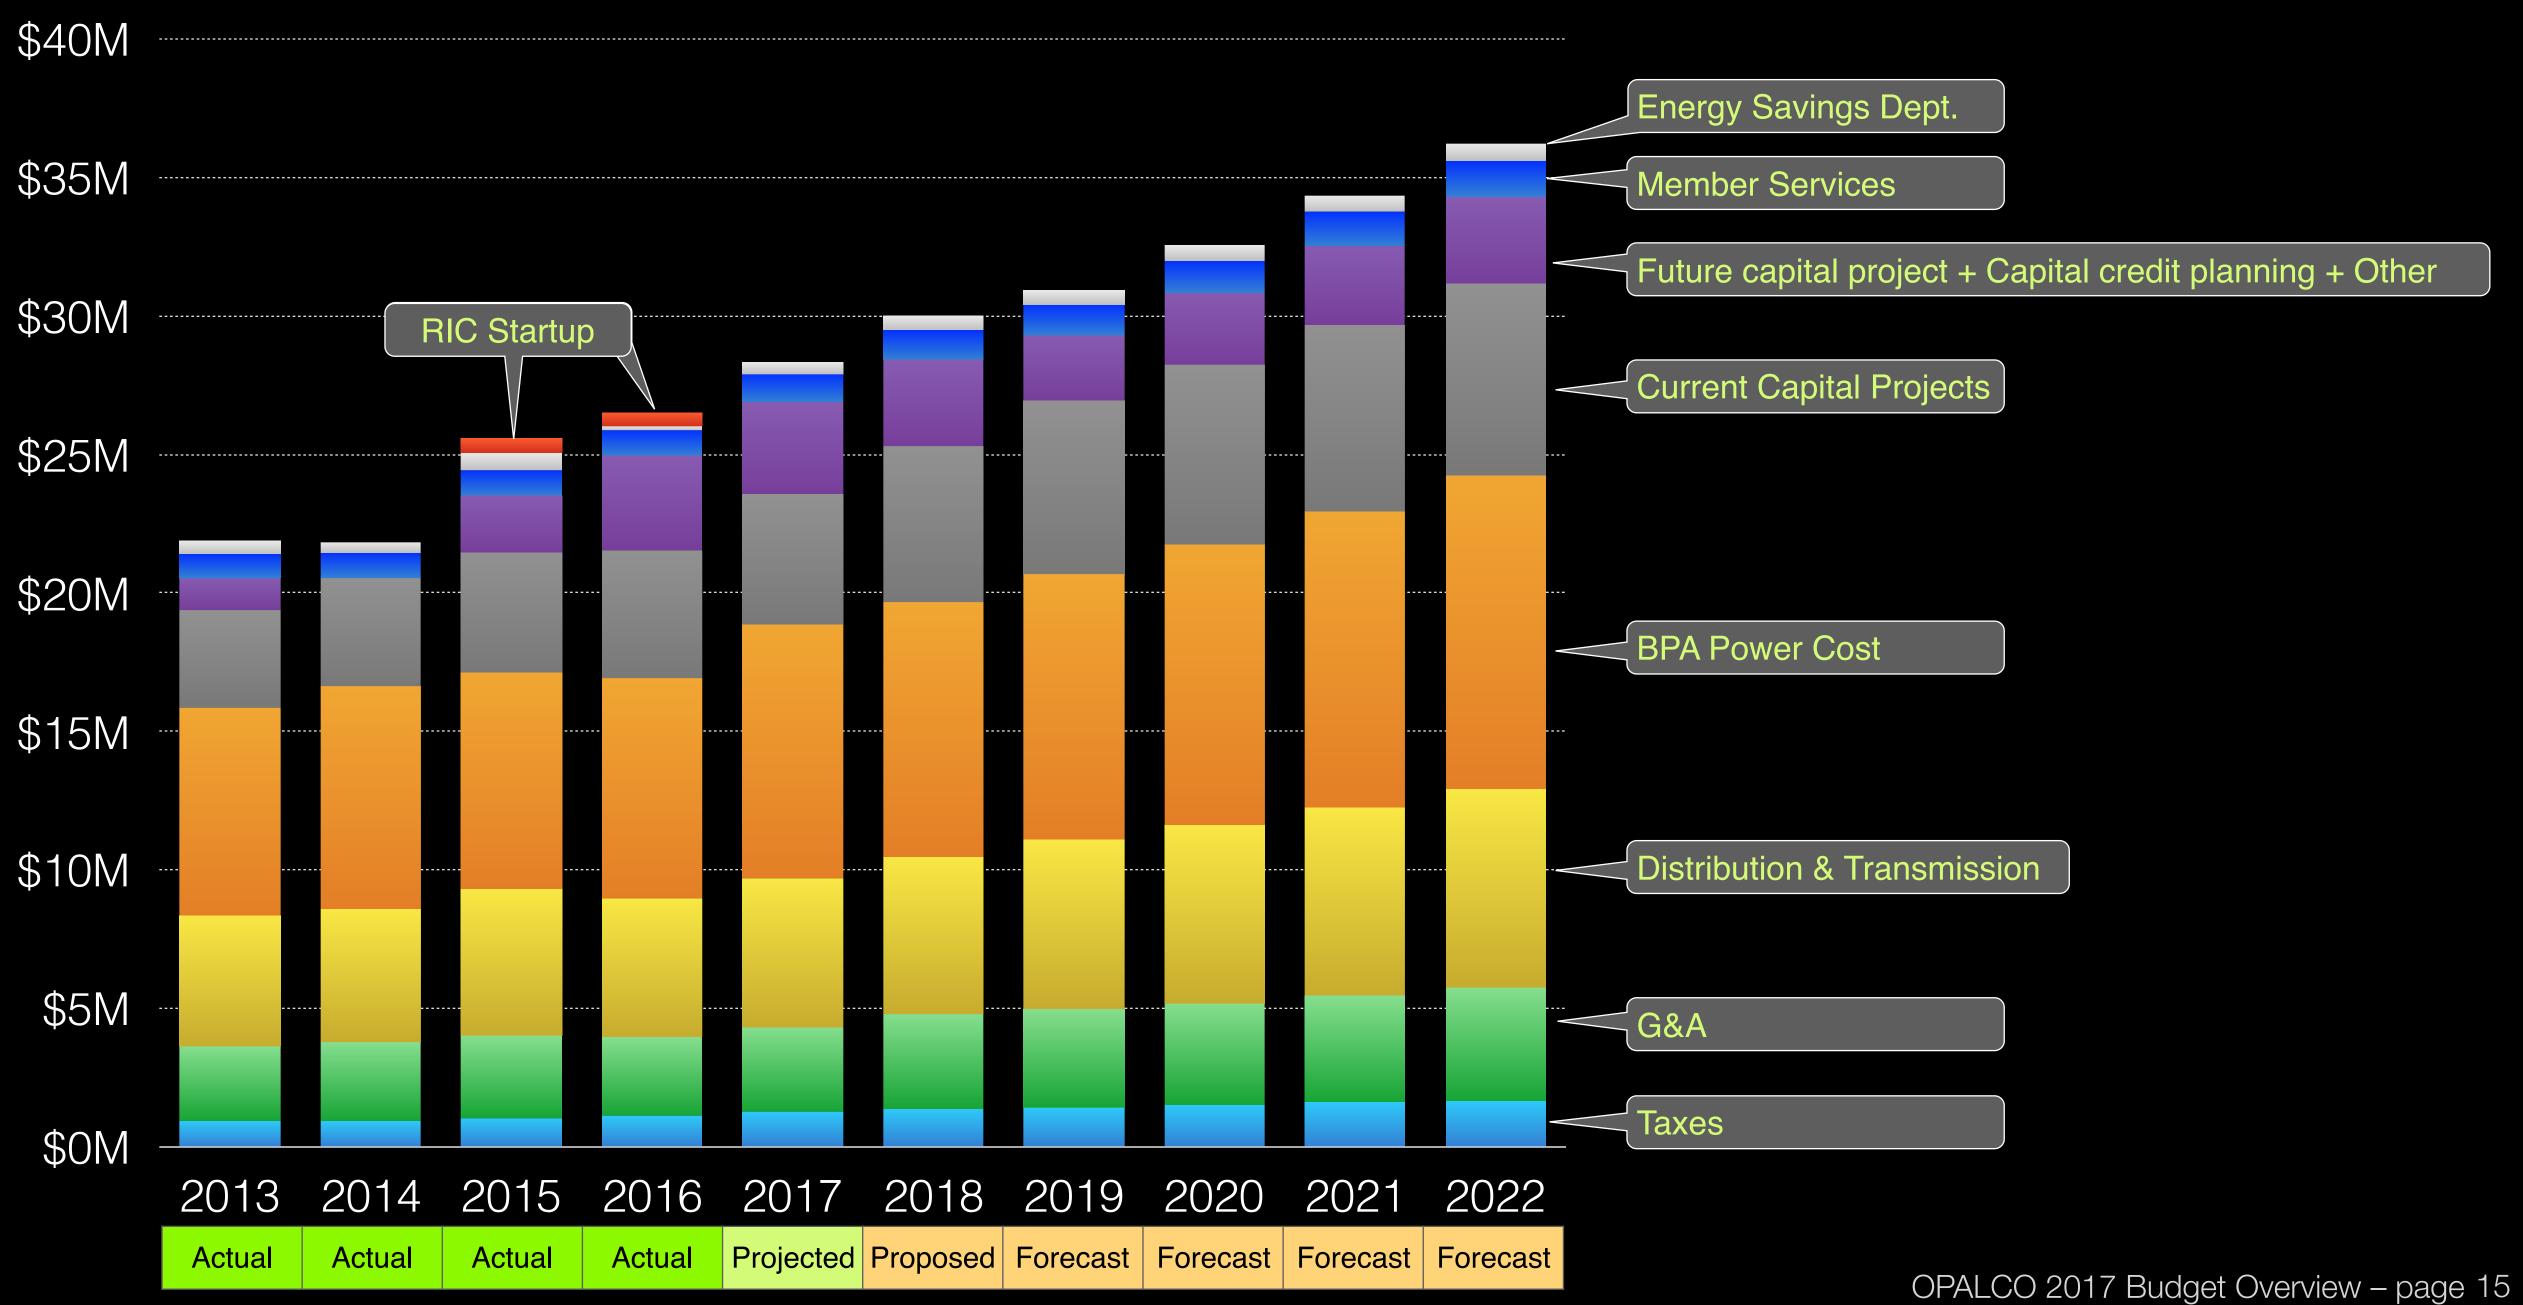

# 2018 Budget: Statement of Operations

OPALCO 2017 Budget Overview – page 16

### Distribution

### Submarine Cables

16

# 2018 Budget: Capital Projects

### <u>Headline</u>

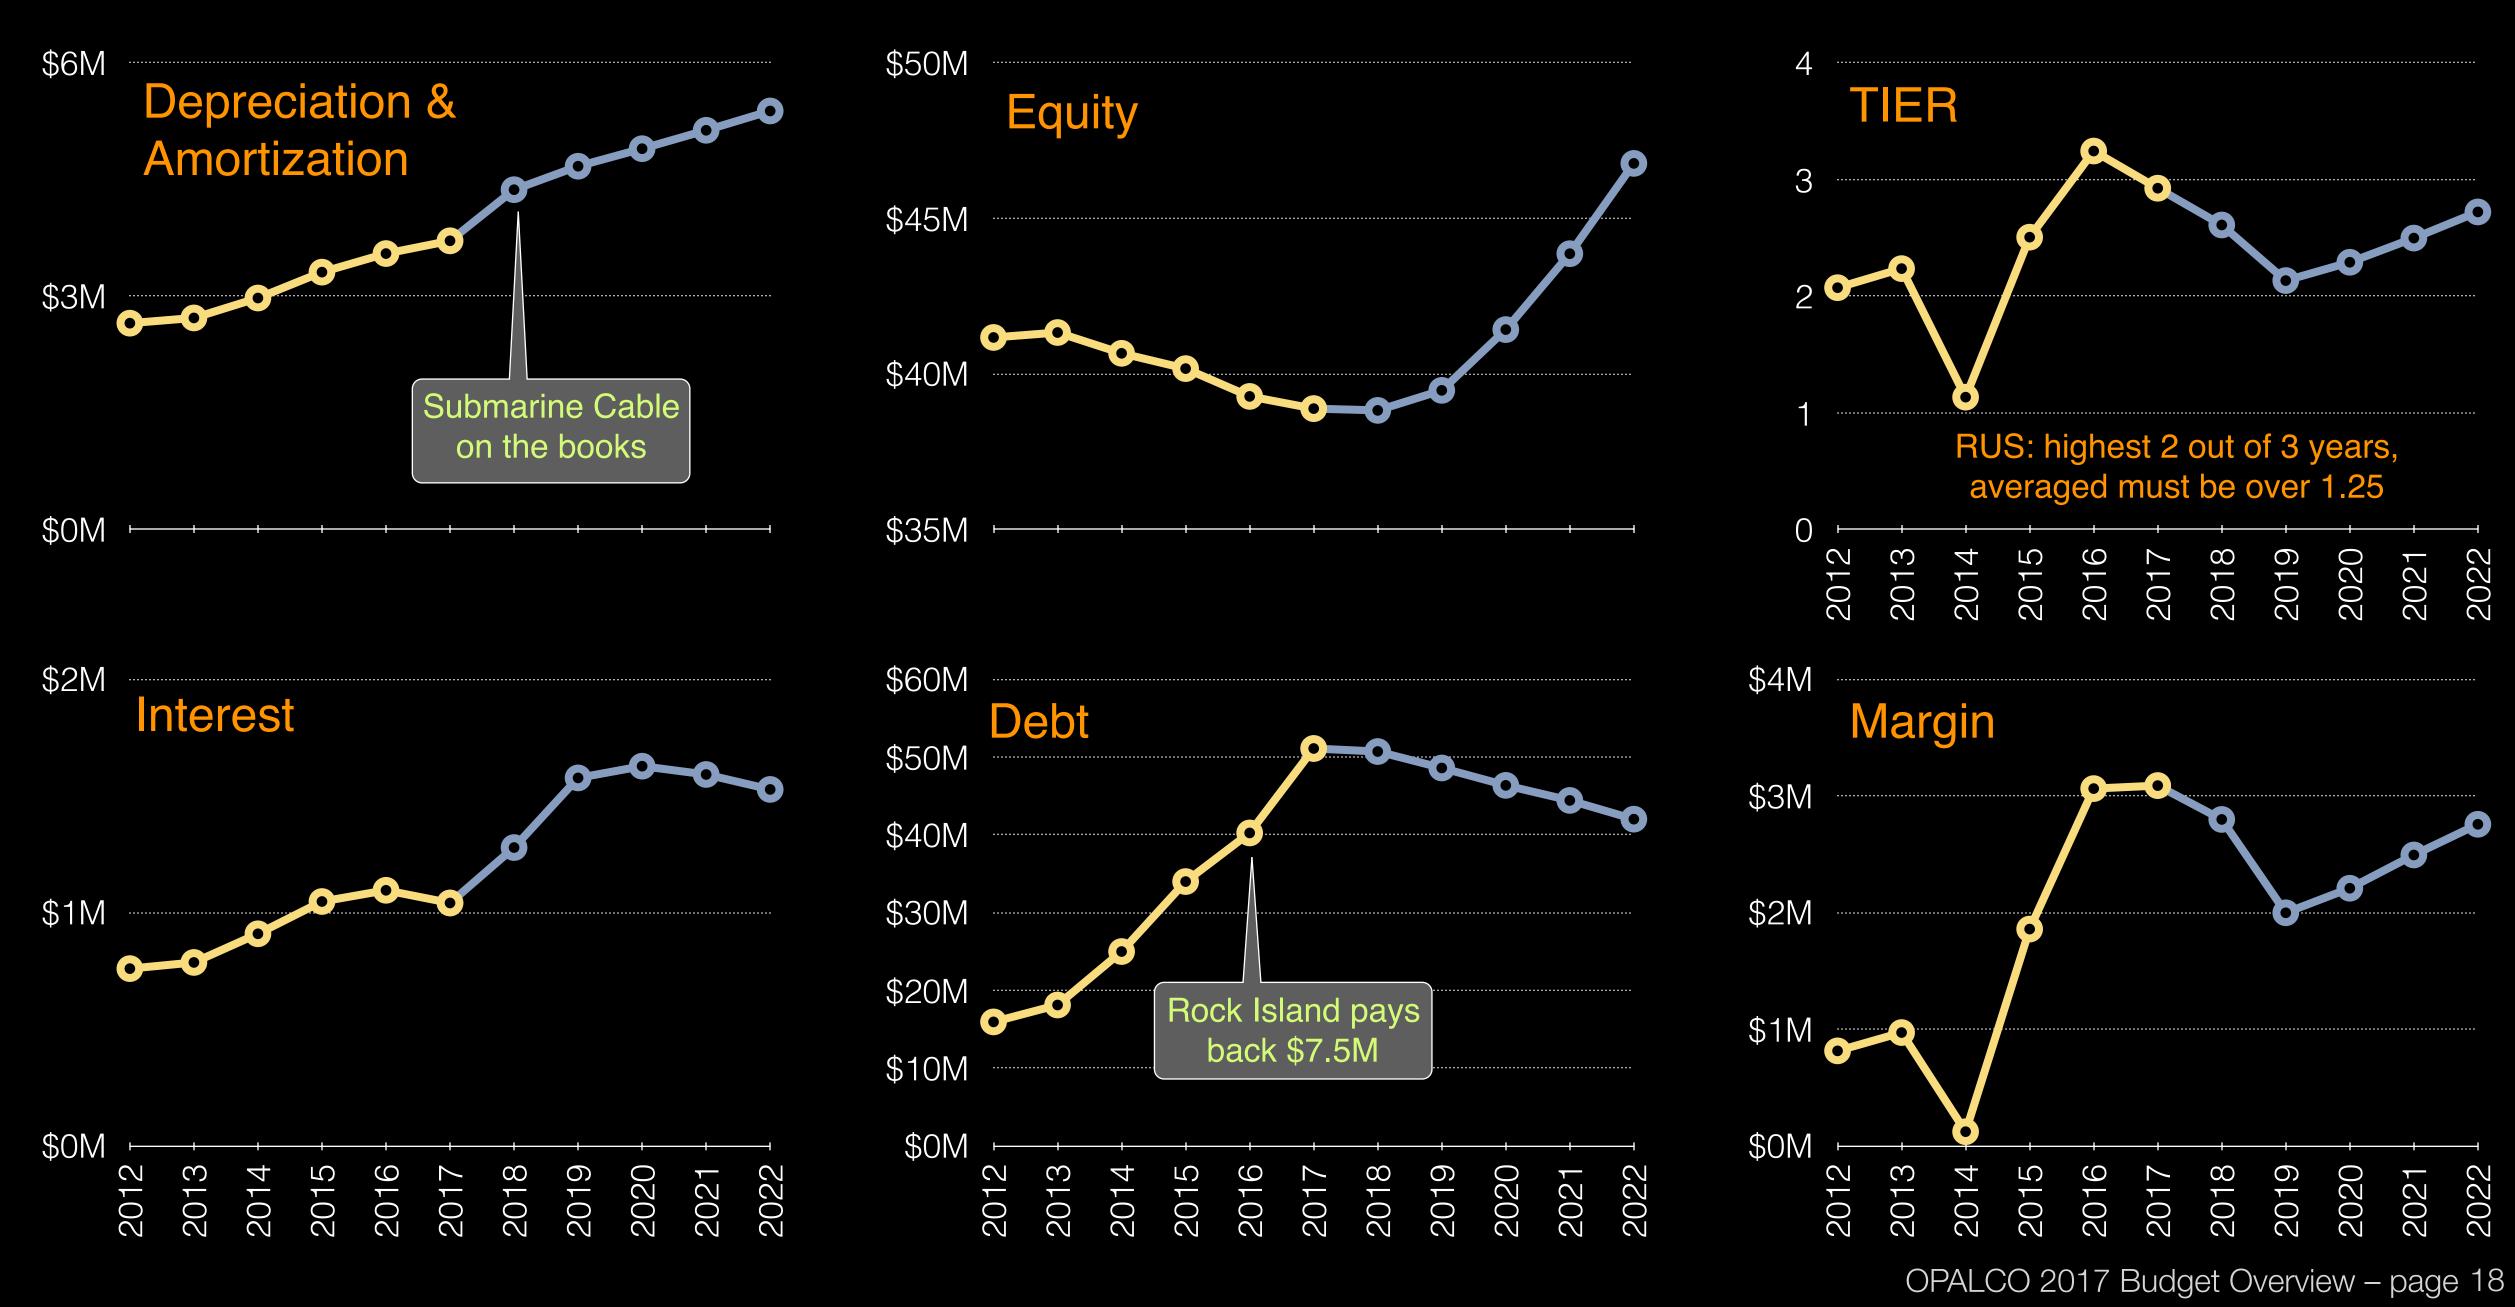

- Transmission: peak is Lopez San Juan submarine cable
- **Distribution:** Normal under-grounding to improve reliability, Decatur substation upgrade, grid storage project
- Grid Control Backbone: Expansion to improve
  - reliability
  - field communications
  - preparing for intermittent local renewable energy resources

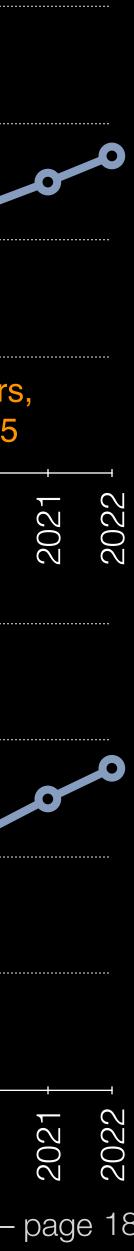

# 2018 Budget: Financial Metrics

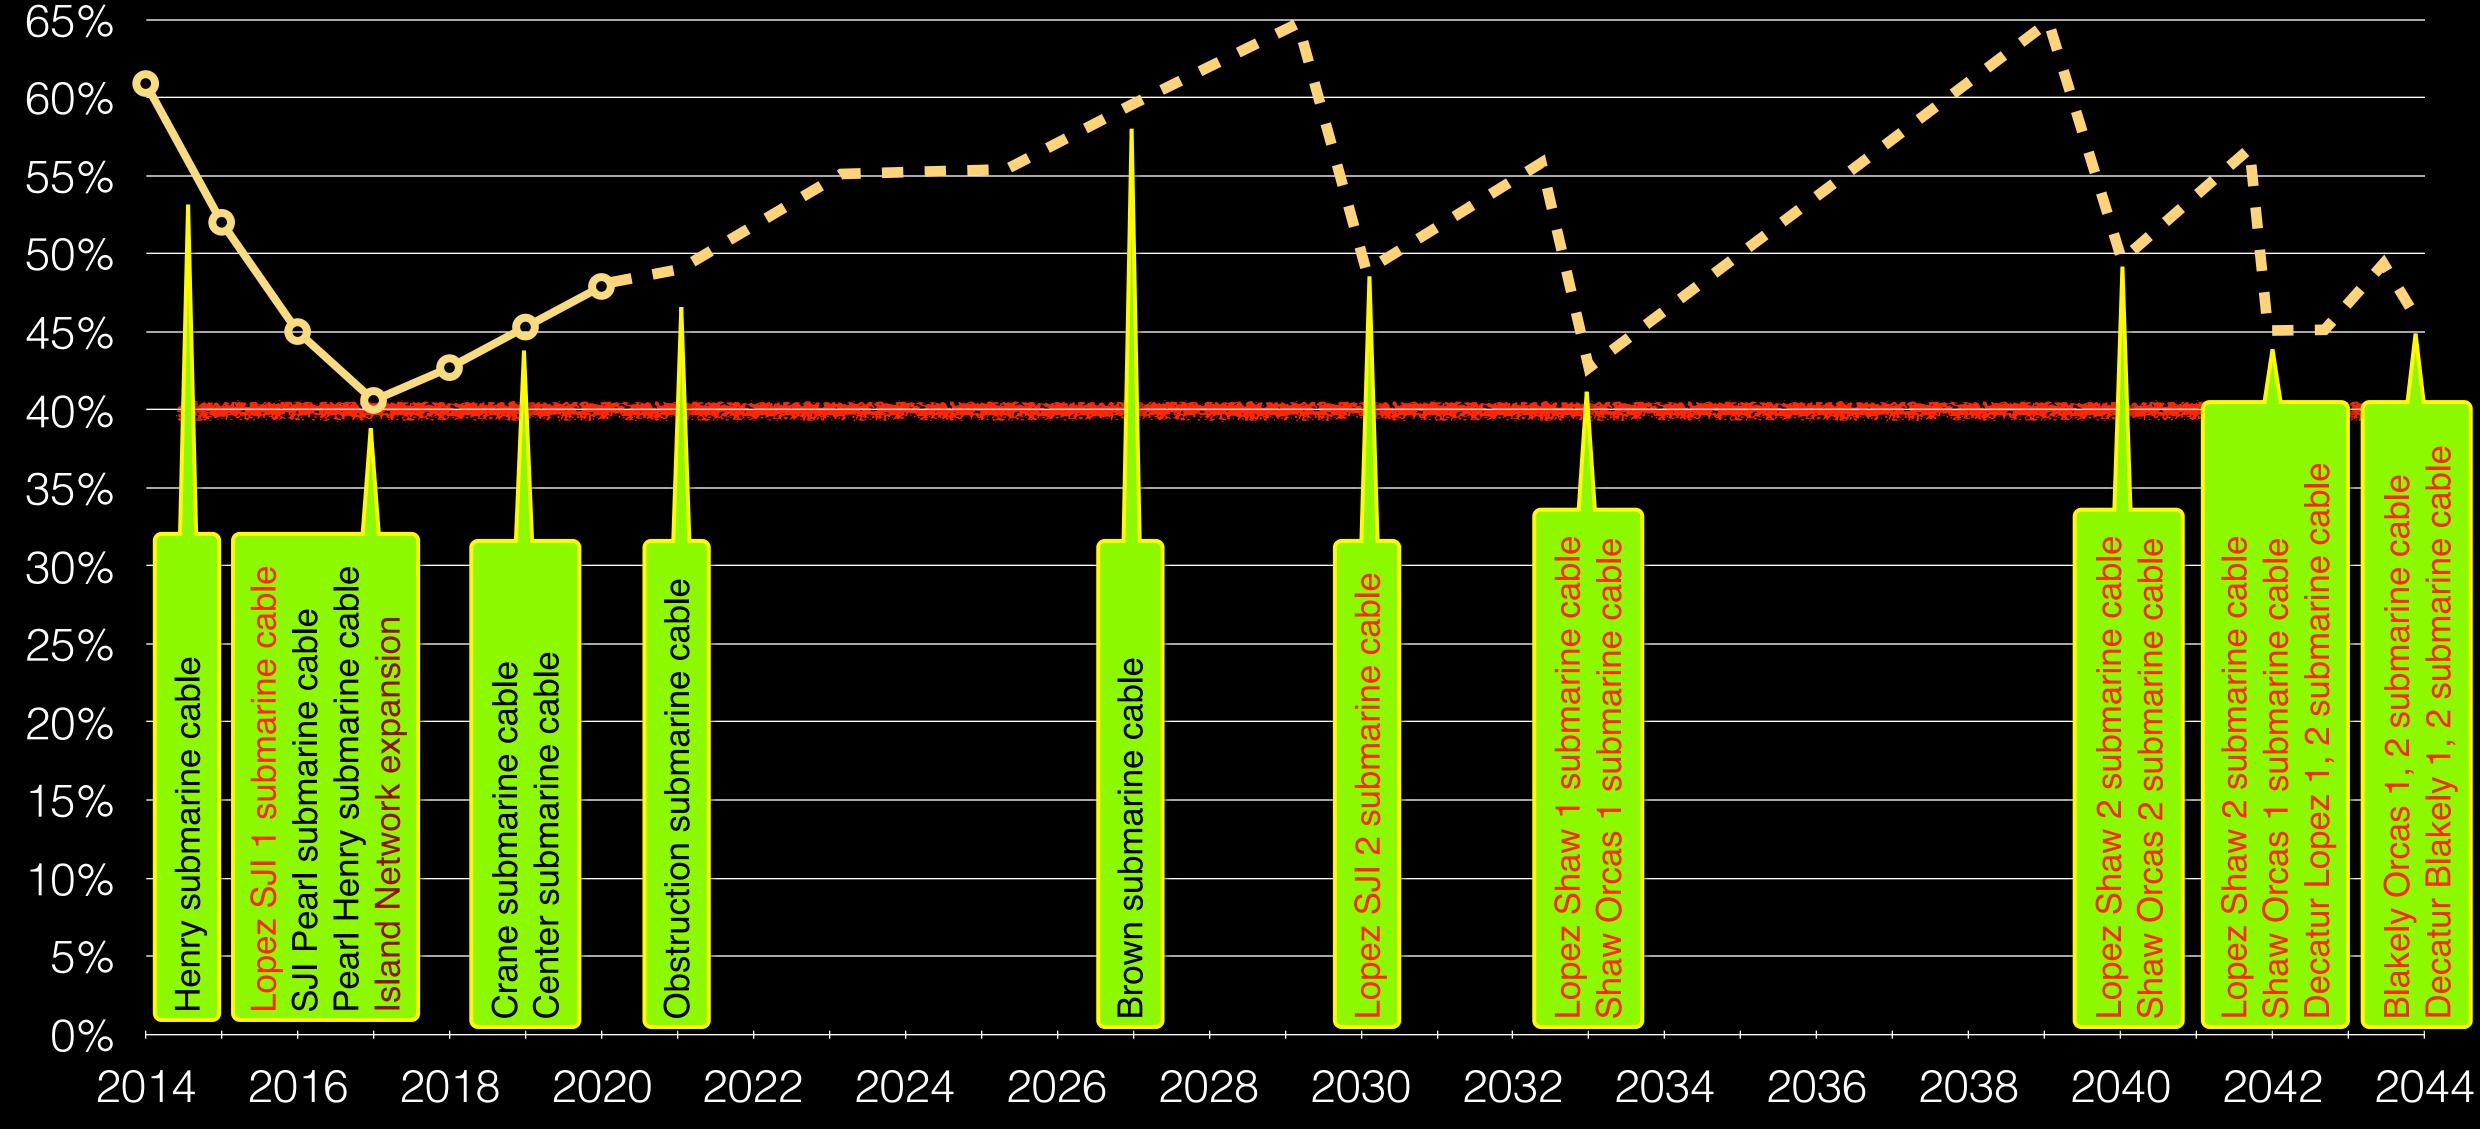

# 2018 Budget: Debt Equity Ratio

# Submarine Cable Replacements: Managing Equity Level Note: Schematic to illustrate equity planning process

Level Equity

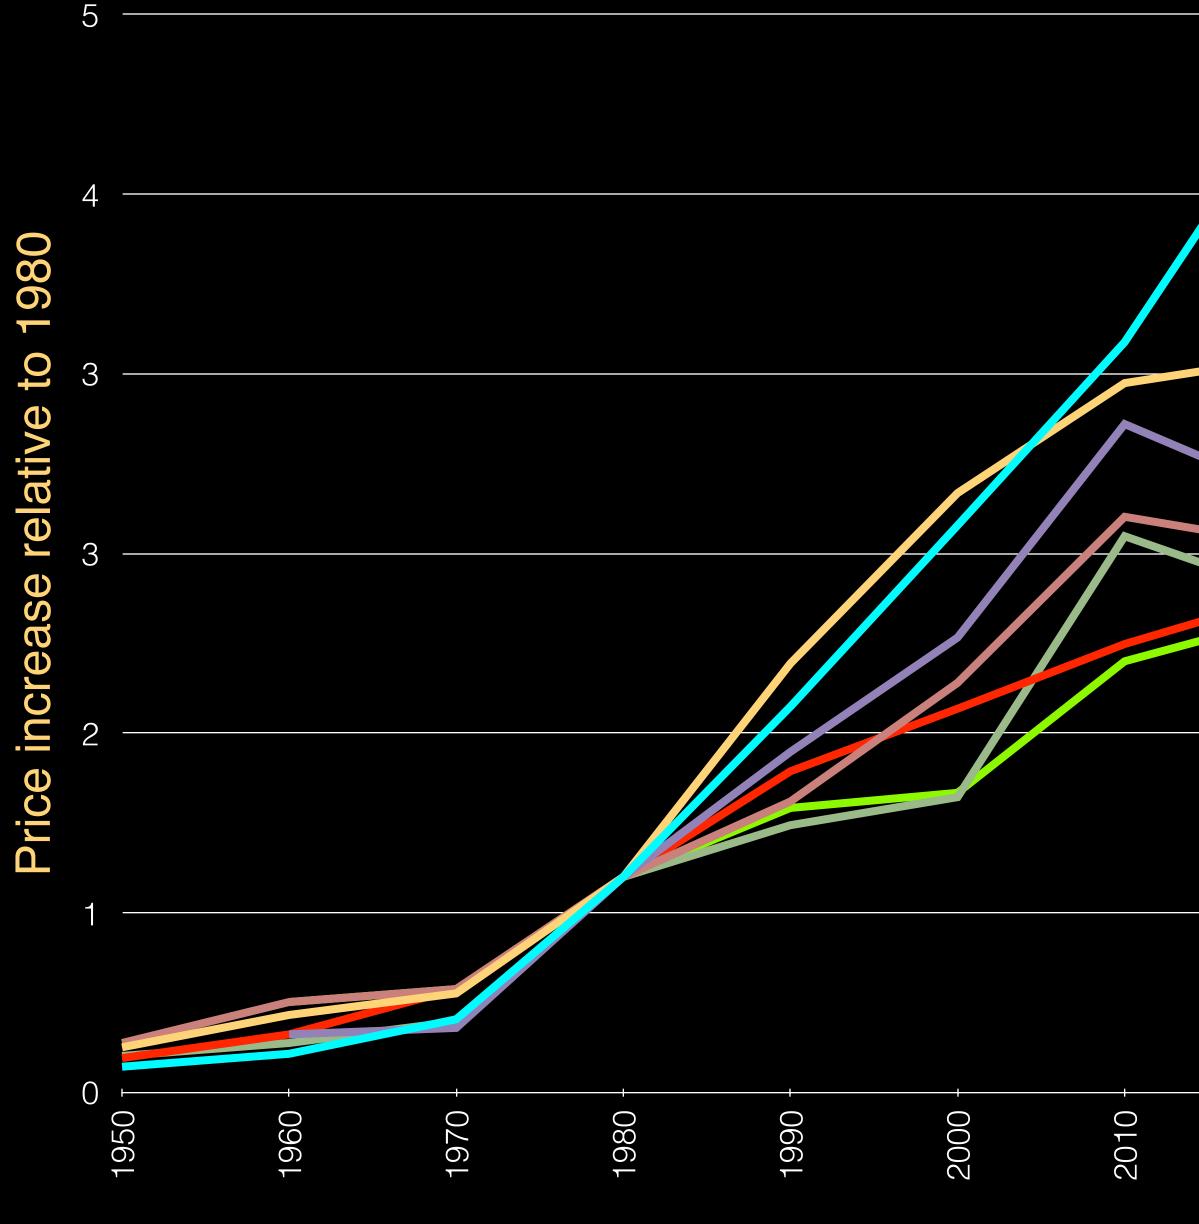

# Proposed rate study in 2018

# Cost Index of U.S. Consumer Items: Not Inflation Adjusted

Source: Bureau of Labor Statistics

- New Car
- Natural Gas
- Bread
- Wage
- Gasoline
- Electricity

### Notes

- Prices indexed to 1 in 1980
- Electricity has increased the least
- Wages have not kept up with most household expenses
- Food prices are volatile, often moving in  $\bullet$ concert with the price of oil and natural gas

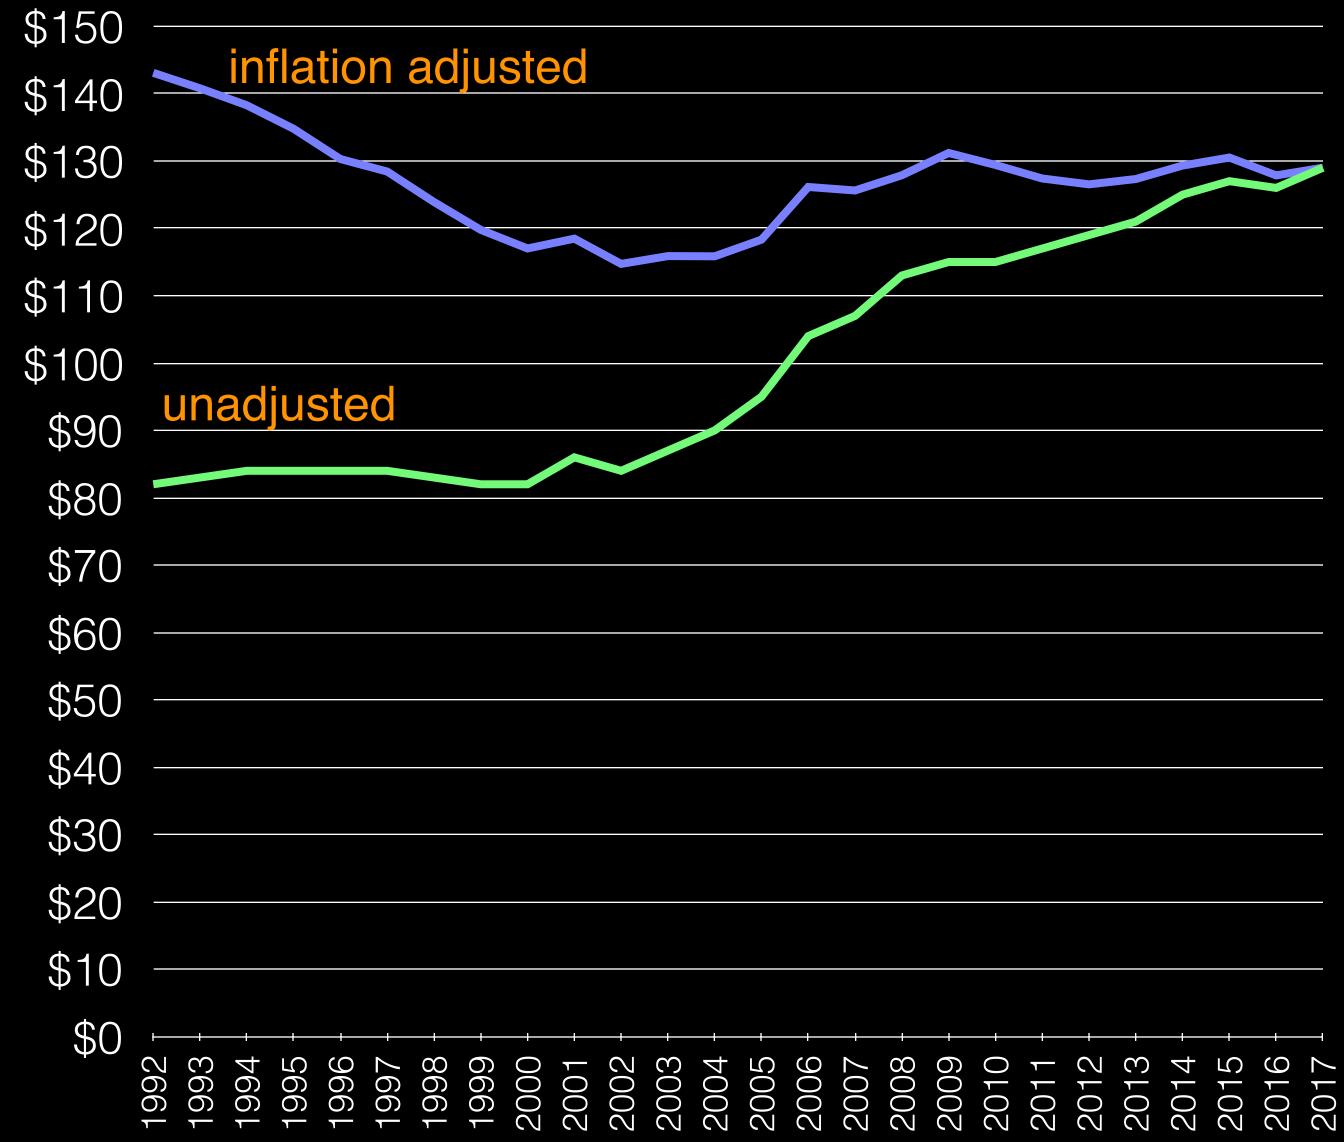

# History of 1,000 kWh Monthly Bill U.S., inflation adjusted

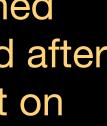

### Source: BLS

### Notes

- 1992 through 2017, Residential
- Historically, average OPALCO member usage has been 1,000 kWh/month
- Monthly bill includes all Facility, Usage Charges for US and OPALCO
- **OPALCO** Rate increases postponed during 2008 - 2011 recession and after effects, to ease economic impact on county.

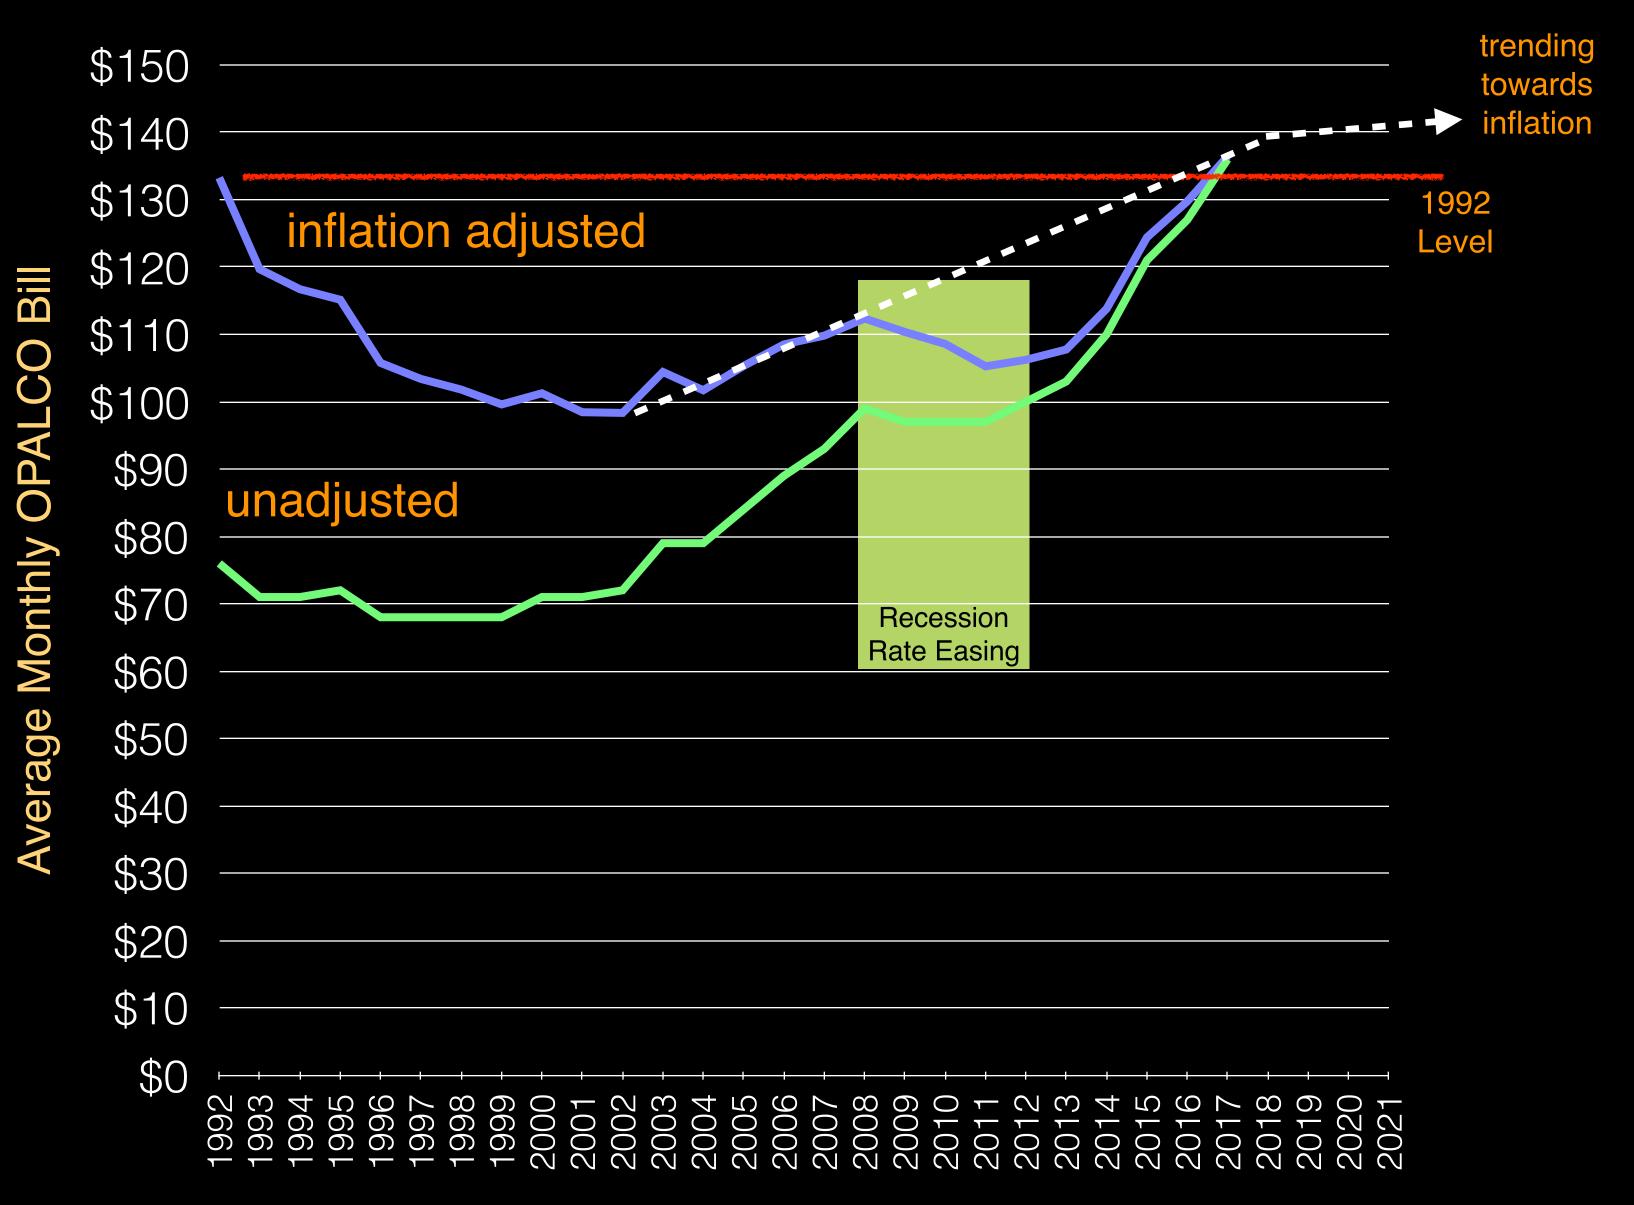

# History of 1,000 kWh Monthly Bill OPALCO, inflation adjusted

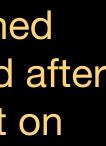

Source: OPALCO

### Notes
