

# Are you ready to SWITCH IT UP?

Save \$\$\$\$ when you switch to electricity for heating and transportation! OPALCO will provide on-bill financing for ductless heat pumps, heat pump water heaters, and/or electric vehicle chargers.

It's easy to apply!

STEP  
01

Get a bid from a contractor. OPALCO has a list of contractors familiar with Switch it Up! online at [www.opalco.com/rebates](http://www.opalco.com/rebates).

STEP  
02

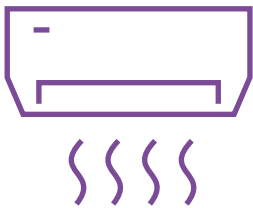

Apply online. [www.opalco.com/switchitup](http://www.opalco.com/switchitup). OPALCO reviews applications quickly and can have an approval letter to you in 10-15 days.

STEP  
03

With your approval letter in hand: sign and return the agreement - and then install your measure!

STEP  
04

Contractor bills OPALCO directly. OPALCO pays the contractor and sends member a conservation agreement that lays out the expected savings, finance charges and term.

#### Ductless Heat Pump

Super efficient two-way heat pumps that transfer heat between outdoor & indoor air to create a comfortable temperature.

**Finance up to \$15,000**

Cuts heating bill spending in half!

#### Heat pump water heaters

Use 60% less energy, moving heat rather than generating it for substantial savings on your monthly energy bill.

**Finance up to \$3,500**

Save ~\$300/year!

#### Electric Vehicle Charger

Install a Level 2 - 240 volt charger in your home or business.

**Finance up to \$2,500**

Save \$1,000+ per year when you go EV!

### A TOP STATE FOR ELECTRIC VEHICLES

Thanks to our state's clean electric grid, transitioning to EVs means big reductions in carbon pollution. Inslee's proposal continues to promote electric vehicles and ferries and will ensure electric and zero-emission vehicle options are a more affordable and convenient option for consumers.
